

Reference for Natalie Porter and All-Star Basketball Tours

St Edmund's College, Canberra, has had the privilege of working with Natalie Porter and All-Star Basketball Tours on seven occasions to deliver our College Basketball Tours to the United States. Over this extended partnership, Natalie has consistently demonstrated exceptional professionalism, meticulous organisation, and an unwavering commitment to creating a holistic experience for our students—both on and off the court. Each tour has been executed with precision and care, reflecting her deep understanding of school culture, student development, and the values we uphold as an Edmund Rice school.

Natalie's ability to design and deliver a tour that balances competitive basketball with social and cultural immersion is second to none. Every itinerary has been thoughtfully structured to expose our students not only to high-quality basketball programs and opposition, but also to the broader cultural and educational experiences that come with international travel. From visits to NBA games and college campuses to exploring key cultural landmarks, Natalie ensures that every element of the tour enriches the students' personal growth and global awareness. Her attention to detail in coordinating accommodation, travel logistics, and team experiences provides our staff and students with confidence and peace of mind throughout the tour.

One of Natalie's great strengths lies in her ability to tailor the playing schedule to suit the needs and abilities of each group. She takes the time to understand the context and objectives of our college teams, ensuring that every game, clinic, and training session is age-appropriate, competitive, and developmental. The opposition is always well-matched, allowing our students to experience challenge and success in equal measure. Natalie's strong connections within the American basketball community—ranging from school and club programs to collegiate coaches—enhance the quality and authenticity of these experiences.

Importantly, Natalie has always shown a genuine appreciation for the Edmund Rice philosophy and Touchstones that underpin everything we do at St Edmund's College. Her tours are built on values of inclusivity, compassion, respect, and justice. She goes beyond simply organising a basketball trip—she helps facilitate a formation experience that encourages our students to grow as young men of integrity and service. The opportunities for reflection, gratitude, and brotherhood that are built into the tour schedule resonate deeply with our college's mission and add a spiritual and emotional depth that distinguishes All Star Basketball Tours from any other provider.

The St Edmund's College USA Basketball Tour has become the pinnacle experience for our basketball program—a milestone that players aspire to throughout their years at the College. This reputation has been established largely through the professionalism, care, and expertise of Natalie and her team at All Star Basketball Tours. Her ability to combine elite sporting experiences with safe, well-organised, and values-driven travel has made her an invaluable partner to our college community.

We hold Natalie Porter and All-Star Basketball Tours in the highest regard and would not hesitate to recommend their services to any school seeking a professionally managed, meaningful, and transformative basketball experience.
